

OUR MISSION

Avets' mission is to provide state-of-the art medicine and compassionate care for pets and the people who love them.

Emergency Care at Avets

Emergencies can happen any time, day or night. When your cat or dog has an emergency and your primary care veterinarian is unavailable, Avets is available 24/7/365 for walk-in care.

Your pet will be evaluated upon arrival. Patients are seen according to the severity of their condition, followed by order of arrival—like you would experience in a human ER.

Please call 412.373.4200 in the event of a pet emergency.

You may also let us know that you are on your way so that we can assist and prepare for your arrival.

Our Services

24/7 Emergency*

Treatment of trauma, life-threatening illness, emergency surgery, ingestion of foreign bodies or toxins, or other urgent patient needs

Avian & Exotics

Appointments for emergent symptoms, soft tissue and orthopedic surgery, diagnostics (CT, endoscopy, ultrasound), preventative wellness and reproductive care

Critical Care

Blood transfusions, long-term mechanical ventilation, oxygen support, pain management

Diagnostic Imaging

CT, echocardiography, MRI, digital radiography, ultrasound

Extracorporeal Therapy

Treatment for acute kidney failure, for certain toxicoses/poisonings, and for immune-mediated conditions

Internal Medicine

Endoscopy: digestive, nasal, respiratory, lower urinary

Neurology & Neurosurgery

MRI, CT, spinal surgery, brain surgery, seizure management, treatment for paralysis and other nerve disorders

Oncology

Chemotherapy, immunotherapy, surgical oncology, and palliative care

Radioactive Iodine Therapy (I-131)

Treatment for hyperthyroidism in cats

Surgery

Orthopedic, minimally invasive, and soft tissue surgery

Urgent Care

Urgent Care appointments are available for dogs and cats needing attention but not requiring a trip to the ER. Call 412.373.4200 for availability and to schedule your pet's appointment.

Our Board-Certified Specialists

Our team of specialists act as an extension of your primary care veterinarian by providing advanced diagnostics and procedures.

A veterinary specialist is a doctor who has completed additional training in a specific area of veterinary medicine, and who has passed an intensive examination that evaluates their skills in that specialty.

Specialty Care at Avets

Specialty care is available by appointment, with a referral from your primary care veterinarian. Your veterinarian will send us your pet's medical records and may ask you to bring test results to your specialty consult. After your visit with a specialist at Avets, we will send your pet's information back to your veterinarian for continued care.
